

Curvorama - InDesign

INDD

Id

- The template is 25% scale.
- CMYK colour space, no SPOT or RGB colours.
- Pantone Colours recommended for colour matching.*
- Although not essential, it can be an advantage to miss the join between panels by placing text either side of an overlap.*
- Resolution of linking images 300 dpi at 25% of final output size.
- Include image into the bleed areas.
- Collect the whole job using InDesigns “package” command, selecting all fonts and images.
- Send your artwork to graphics@fresco.co.uk - on our homepage www.fresco.co.uk you can use the “Upload” button.

* Please be aware that CMYK printing will not match to PANTONE colours exactly, however results can be very close.

* It's better to miss or intersect the overlap through the stroke
